PRINCIPAL

Raymond Baumrind

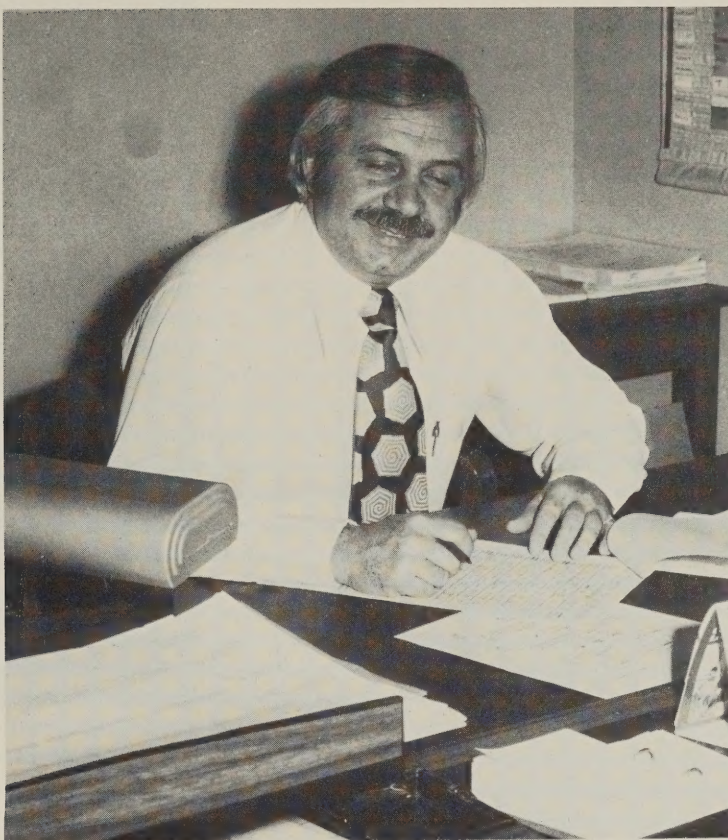

Choices.

Instead of being the end of a final chapter, graduation opens the door to new and more significant choices. Walking into high school in September will present many new opportunities. It is our hope that our graduates will make the decision to take advantage of every option that presents itself. The continuation of basic education, opportunities in new subject areas, career choices all of these as well as other options loom upon the horizon in high school and beyond.

Now that we have mentioned choices, do we really have a choice? Truly, there is only one road for us to walk. We owe it to ourselves and our families to continue to learn, to prepare ourselves to qualify for the best life has to offer.

It is a simple choice. We hope that you will make it and will find success and happiness on the way.
